1 March 2018

Dear Parents

As you are aware, we will be having a 'Science Week' in school on the week beginning 12th March and this will be based around 'Blue Planet'.

We would like to invite you to share our learning from the week on Friday 16th March at 2.45pm. If your child happens to be in Star of the Week Assembly that week, then the assembly time (for that week only) will be 2.15pm.

On the afternoon, please go to the usual door where you drop off/collect your child. If you have more than one child in school, then you are welcome to take your child with you to another classroom, but please let your child's class teacher know before taking them. There will be a signal for you to leave five minutes before the end of the school day so that the children have time to get their things ready for home.

We look forward to seeing you then.

Katie Booth
Science Subject Leader
