

## Spring 2 – Into the Woods

### Year 1 Optional home learning

This is a takeaway menu of home learning for you and your child to choose from should you wish to complete any home learning. Please upload onto Tapestry anything that you create to share with the class.

Go for a nature walk with your family and look for signs of Spring. What did you see?

Spend time looking at clock faces together and talking about time. In Year One we learn to tell the time using o'clock and half past. Together make a clock face using a plate/ circle made out of card and a split pin to attach hands. Introduce o'clock and half past times into your daily routine, e.g, it is half past 7, it is bedtime – can we make our clock say half past seven? Repeat for different activities that you do throughout the day.

Create a simple map of your garden with labels. For a challenge, can you add a key?

Press some flowers and use them to create a picture.

<https://www.redtedart.com/how-to-press-flowers/>

Measure the height of everyone in your family. Who is shorter than you? Who is taller than you? Who is the shortest and tallest in your family?

Make a fact file of your favourite animal, including what they eat. Find out if they are herbivore, carnivore or omnivore.

Please read every day and learn your common exception words for Year 1 which are on Tapestry for you to refer to. Number bonds up to and including numbers to 10.
