

We are excited to announce that we have partnered with a new digital well-being service called Just Ask Max.

With how the world is changing, we want to ensure our pupils are kept safe online at school and at home. Just Ask Max provides tailored recommendations to the whole family to foster healthier tech relationships for all. From cyber bullying, to hackers, online gaming to sexting, they help you put the right steps in place to protect your whole family.

As a school, we'll continue with everything we're already doing to keep pupils safe online – Just Ask Max is here for you, the parents. So, what's next?

1. To provide a tailored service for you, we need your input on 5 questions around online safety – please respond [here](#) (takes about 45 seconds).
2. Head over to [Just Ask Max](#) to watch their fun video on how it works.
3. We'll let you know when the service goes live (end of June) and provide you with the special discount we have secured with them.
